

Why choose IGCSE Geography?

Why choose IGCSE Geography?

The world is changing at a rapid rate, faster than it ever has before. As geographers and stewards of this planet, our role is more important than ever. By studying geography, students are able to explain these changes as well as make a real difference to global, national and local issues. It is a subject about now and the future. It is the most popular IGCSE in the school and next year we want as many students choosing it.

The above list of skills will provide Geography students with a long and varied list of careers. Geography has an excellent record for graduate employment in the following industries:

- Advertising
- Education
- Environmental management/conservation
- Finance
- Law
- Marketing
- Sales
- Social/health studies

FIELDTRIPS

I know from speaking to the new 2 Geography teachers that they are keen to develop some fieldtrips. Previously we have visited an organic farm as well as Tula.

IGCSE GEOGRAPHY 4 EXAMS

PAPER 1

This exam paper will test your knowledge on the topics learnt during forms 4 & 5 such as population, settlement, rivers, coasts, tourism and volcanoes and earthquakes.

45%

PAPER 3/4

You will complete an exam on a computer and one on paper. Both will be a 'virtual field trip'. The highest mark from either will be used so you have a plan B!

27.5%

PAPER 2

This exam paper will test your geographical skills such as map reading and will examine your ability to analyse geographical information.

27.5%

If you have any questions then please see Anthony!
